Quokka

*This photo story is about very
cute kangaroos – Quokkas.*

*You can see
a Quokka in
different ways.*

For example, you can look at an object for a long time...

*... and imagine
that it is a Quokka.*

*Then, the image of Quokka may really
begin to appear in your life from time
to time,*

*...sometimes
in the most
unexpected
places...*

However, if you want a real and emotional communication with a Quokka,

... if you want to tell him your secrets...

*... or teach him how to dance
beautifully,*

... if you want to know what a Quokka thinks, for instance, about peacocks, then you need another plan.

*In this case, you'd better sit down
somewhere on the shore and wait...*

*...until you see a ship with a picture
of Quokkas.*

***This is the ship that will bring you to these
cute kangaroos – so, come on aboard!***

Now, we'll tell you a little about the Quokkas' habitat and their interests.

All Quokkas live on their island where they have a very eventful life.

Quokkas are mainly engaged in tourism: they welcome their guests,

... pose for pictures,

*... eat leaves from people's
hands,*

*... well, or just gives
positive and good mood
to tourists.*

In exchange for this, Quokka asks guests for a very small fee – just double-check their plates,

*... well, or lick
an ice cream
stick.*

However, even without tourists, the life on the island does not stand still. Quokkas publish their newspaper here,

... trying to fight with the bad habits of tourists,

Mr. McQuokky

**I'll make your
tail fluffy**

... open a quokkas' beauty salons,

... negotiate with their neighbors, and many other things.

The inner life of Quokkas is also very intensive. They like to reflect deeply on different topics,

*...appreciate their family's
warmth,*

*... and in rare cases of scandals,
Quokkas immediately jump to the local
psychoanalyst.*

*Well, that's
basically
all that we
wanted to
tell you
about
these very
cute
creatures*

...

*... about
Quokkas.*
